PAOLI HOSPITAL

255 West Lancaster Avenue | Paoli, PA 19301

HOSPITAL OVERVIEW

Founded in 1913, Paoli Hospital is recognized for its exceptional medical and surgical services, advanced technology and personalized approach to care.

We offer a wide range of services, including orthopaedics, maternity care, cardiovascular, cancer care and Chester County's only trauma center.

Neonatologists from Children's Hospital of Philadelphia provide specialized newborn and neonatal intensive care in our Level II NICU. Main Line Health's affiliation with Jefferson Health enables a neurointervention center for advanced stroke care at Paoli Hospital.

The hospital features an award-winning Patient Care Pavilion, designed to enhance clinical outcomes, patient safety and the overall experience with private rooms and family accommodations.

Consistently recognized for excellence, Paoli Hospital remains a leader in patient-centered care in the region.

INVESTING IN OUR FUTURE

- Paoli Hospital recently opened a renovated wing to help support capacity strains while offering support for inpatients in the Emergency Department, the Ambulatory Surgery Unit and other surge spaces.
- Paoli Hospital's state-of-the-art neurointervention labs offer the most advanced diagnostics and treatment available for patients experiencing stroke and heart disease.

PHILANTHROPY

Each year, Paoli Hospital receives thousands of charitable donations, both large and small, from the community. Many grateful patients give annually in honor of their caregivers to support patient care programs, new facilities and technology. Leadership donors are welcomed as members of H. Phelps Potter Society and are closely connected to the hospital through special events and recognition. Legacy gifts from donors who have included the hospital in their estate plans impact the hospital for generations, and it can cost nothing during a person's lifetime. Every gift is gratefully received and will help to ensure that Paoli Hospital continues to provide the highest quality and most compassionate, human care possible.
